SYSTEM SPECIFICATIONS

- **Display:**
 - LCD
- **Controller:**
 - Specifically made PID controller for Ovens
- **Features:**
 - Safety Thermostat for user protection
- **Chamber:**
 - Material: Special Ceramic Fiber
 - Dimensions: As per user requirements
- **Supply Voltage:**
 - 230V AC, 50/60Hz
- **Temperature:**
 - Range: 400 °C to 1000 °C
 - Accuracy +/- 5°C
 - Body Temperature: Maximum 50°C

ADDITIONAL FEATURES

- Data logger facility with 21 CFR compliance software
- Heating Element: Rod type for reliability, ease of maintenance
